M190 Salt, Pepper and Herb Mill white ABS
M191 Salt, Pepper and Herb Mill stainless steel

The patented base is designed to automatically close so that no residues can spill on the table when you are finished and put it down.

A well visible grinder dial allows for simple and fast adjustment, while the large transparent container stores plenty of spice.

The ceramic grinder and all the components are guaranteed against oxidation in any conditions and will never react with moisture, discolor, rust, corrode or wear out.

Container made of PC, mechanism made of POM

Grinder Ceramic 92% Al₂O₃

Body made either of ABS or brushed stainless steel

An ordinary spice mill, attached with an extraordinary design concept, such as the automatic base.

The practical top filling design offers an easy access for spice loading.

While twisting to grind, the base opens automatically to dispense ground spice. Stop twisting, the base shuts automatically and immediately, to keep the tabletop free of spills.

The numeric collar is a precise and convenient control for the grinding adjustment.

Attractive try-me card stands also flat on a countertop

External grind select.
From fine to coarse,
7 precise adjustments

Spill-free base

With every twist of the top, the base opens automatically
and allows ground spice through.

After use, the base shuts automatically to keep the table top free of spill.

OPENED BASE

CLOSED BASE

Easy to fill from the top.
